

# BRITESKY CORE

## A Secure, Scalable Solution for Cloud Data Storage, Management, and Sharing

The cloud is not a one-size-fits-all solution. Every business has unique requirements for secure cloud data storage, management, and sharing.

BriteSky Core makes it easy for your business to leverage the benefits of secure enterprise cloud computing that's fully customized to meet your individual business requirements — whether you need a public, private, or hybrid cloud environment.

We provide the virtual data vault, you choose the options that suit your business, then we work with your IT team to manage your migration and maintain your highly secure, virtual data environment.

### Customize Your Secure Cloud Environment

BriteSky Core is a unique, modular solution that's engineered from the ground up to grow with you, while maintaining complete security over all aspects of data storage, management, and sharing.

It features a layered Portable On-Demand Data Center (PODD) architecture that provides nearly unlimited room to expand. You can choose the mix of secure cloud features and functions your business needs today, then easily scale to adopt additional capabilities over time as your business evolves and data volumes increase.

This flexible, integrated approach supports a variety of managed services, including:

- **BriteSky Preserve** for Storage as a Service (SaaS) and Backup as a Service (BaaS)
- **BriteSky Protect** for Firewall as a Service (FWaaS)
- **BriteSky Recover** for Disaster Recovery as a Service (DRaaS)
- **BriteSky Reside** for Infrastructure as a Service (IaaS)
- **BriteSky Share** for secure file sharing

You can also choose any of our managed cloud services as a standalone product. In addition, you can easily combine our cloud offerings with customized **BriteSky Cybersecurity** products and solutions to create a high-security enterprise cloud environment.

### Increase Business Agility

With BriteSky Core, you're not locked into any hardware or software platform or a specific set of cloud features and functionality. You maintain complete control over all of your active, passive, and unstructured data at all times. This flexibility empowers your business to:

- Easily adapt to emerging market trends to take advantage of new business opportunities.
- Scale IT services in real time to roll out new offerings that meet specific marketing or sales requirements.
- Reduce the capital, operating, management, training, and support costs associated with building and maintaining an in-house cloud solution to free up funds for other business activities.

*Immediately  
improve  
productivity,  
enable  
collaboration,  
increase efficiency,  
enhance security,  
and reduce costs.*

## Simplify Your Move With a Turnkey Cloud Solution

With BriteSky Core, your business has a full-featured, turnkey solution that provides everything you need in a cloud environment to immediately improve productivity, enable collaboration, increase efficiency, enhance security, and reduce costs:

- Networking resources preconfigured to fit your current IT infrastructure
- Compute resources engineered to run SAP HANA without additional hardware so you can process structured data from SAP and non-SAP databases
- Hypervisor-agnostic virtualization for on-demand use of virtual resources
- Data and traffic management options
- Multi-cloud brokering with Microsoft Azure and Amazon Web Services
- On-site and off-site backup capabilities
- Integrated security
- A cloud management platform (CMP)

## Leverage Our Compliance

At BriteSky, we constantly adopt and evaluate ourselves against industry best practices and certifications. All of our staff have Government of Canada clearance. In addition, our cloud products and solutions adhere to the following certifications and accreditations which are renewed annually:

- SOC 2 Type 2
- ISO 27001: 2013
- ISO 27017 and ISO 27018
- SAP cloud and infrastructure operations
- ITSG-33 Protected B Cloud Assessment completed by the Canadian Center for Cyber Security (CCCS) and Communications Security Establishment (CSE)

Our managed cloud services provide Canadian enterprises with data residency and data sovereignty. All data, including security logs, events, and remediation actions, remains on Canadian soil, managed from a state-of-the-art security network operations center in Ottawa.

BriteSky is Canadian-owned and -operated. We will never copy, review, or mine your corporate data or IP for any purpose. All data rights and controls remain property of your organization.

## Rely on Field-Proven Expertise

BriteSky Core leverages our decades of real-world experience designing, building, and delivering custom cloud solutions for leading enterprises, governments, and banking institutions across Canada. Our highly skilled engineers have extensive expertise in data center technologies. They incorporate only best-of-breed hardware and software from leading vendors into our solutions.
